**Abstract:** The purpose of this study was to describe students' management in increasing character and achievement in State Islamic Senior High School (MAN) 2 in Banjarnegara, including (1) acceptance of new students, (2) coaching students through disciplinary coaching, noble character building and academic and non academic achievement, (3) the impact of character building and achievement for students of MAN 2 Banjarnegara. This research used descriptive qualitative approach. Data collection techniques was in-depth interview, observation, and documentation study. The validity of the data used three criteria, namely credibility, dependability, and konfirmability. The findings of this study were, *First*, the acceptance of students is made a breakthrough with the registration of academic and non academic achievement scholarships, selected through the value of report cards, certificate of championship / achievement charter, academic potential test and for non academic plus skill test. For students who pass the selection to sign the achievement contract while studying at MAN 2 Banjarnegara. *Second*, character building is done by habituation and activities program that are integrated in curricular and extracurricular activities. *Third*, students who joint academic and non academic achievement program at MAN 2 Banjarnegara have motivation, spirit of competition to achieve higher achievement and focus a lot on self development and can anticipate the usage of spare time for positive things/ activities.

**Keywords:** *student's management, character, achievement*
